

Health Policies: What Your Family Can Do

- Health
 - Check your child's temperature 30 to 60 minutes before drop-off.
 - If your child has symptoms, is ill, or has been in contact with a person who is ill, contact the administrative team immediately and follow the directions on the "When to Stay Home and When to Return to School" document on the Health page on the ECA website.
 - If we ask you to pick up your child, pick up within 30 minutes.
 - Create a plan in case your child must stay home from school.
- Masks
 - All people 4+ years old wear a mask inside.
 - Supply a clean mask for your child every day.
 - For young children, supply several clean masks each day.
- Hygiene
 - Pack food and drinks that your child can open independently.
 - For birthdays and holidays, avoid sending food and drink for other children.
- Separation
 - Outside school, do not gather indoors in large groups.
 - Outside school, allow your children to spend time with ECA children in their cohort only. Ask the teachers for details.
 - Avoid entering the building.
 - If you do enter the building, maintain 6' distancing.
 - If your child is in preschool or young fives, one parent may enter the building to drop off. Please stay in the hallway; do not enter the classroom.
 - If your child is in preschool or young fives, at pick-up time we will bring your child to the front door. (The family handbook says you may come inside to pick up, but we will not do that right now.)
 - To drop off forgotten lunch boxes, books, homework, etc, call the school, and we will buzz you in. Leave the items on the table in the vestibule.
 - To drop off medicine (and the Request to Administer Medication form), call the school, and we will buzz you in. Wait in the vestibule, and we will meet you there.
- Teach your child to follow the list of "What the Students Can Do."
